Level: Intermediate

https://docs.microsoft.com/en-us/learn/certifications/m365-messaging-administrator/

Topic 1, Manage organizational settings and resources

QUESTION NO: 1

You have enabled hierarchical address books (HABs) for your company's Microsoft Exchange Online tenant.

You then created a new distribution group that must be configured as the root of the hierarchy. You have to make sure that the members of the group are displayed in the hierarchy.

Which of the following is the PowerShell cmdlet that be used?

A.
Set-AuthConfig

B.
New-SettingOverride

C.
Set-OrganizationConfig

D.
Set-ExchangeSettings

Answer: C
Explanation:

Reference:

https://docs.microsoft.com/en-us/exchange/address-books/hierarchical-address-books/enable-or-disable-hierarchical-address-books
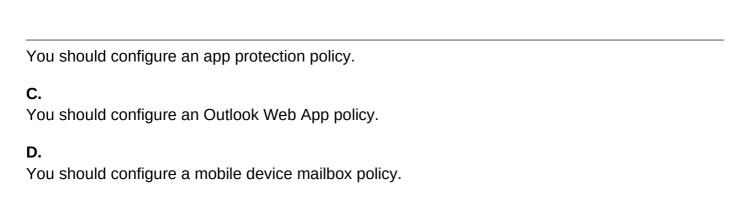

QUESTION NO: 2

You need to consider the underlined segment to establish whether it is accurate.

To view the mobile device access rule that affects a device, you can use the

Get-MobileDevice or the Get-DeviceTenantRule cmdlet.

Which cmdlet should you run?

A.
No adjustment required.

B.
the Get-DevicePolicy cmdlet

C.
the Get-MobileDeviceStatistics cmdlet

D.
the Get-DeviceConfigurationRule cmdlet

Answer: C
Explanation:

The Get-MobileDevice cmdlet returns identification, configuration, and status information for each mobile device.

The Get-MobileDeviceStatistics cmdlet can also be used.

https://docs.microsoft.com/en-us/powershell/module/exchange/devices/get-mobiledevice?view=exchange-ps

QUESTION NO: 3

All users in your company's Microsoft Exchange Online tenant are only assigned an Office 365 Enterprise E3 license.

You have been tasked with making sure that when users access their Microsoft 365 mailbox from an Android device, they only do so via Microsoft Outlook.

Which of the following actions should you take?

A.
You should configure a device compliance policy.

B.

You should configure an app protection policy.

C.
You should configure an Outlook Web App policy.

D.
You should configure a mobile device mailbox policy.

Answer: D
Explanation:

Use the ApprovedApplicationList with the New-MobileDeviceMailboxPolicy cmdlet. This option is only available in PowerShell and not in the Exchange Admin Console.

Reference:

https://docs.microsoft.com/en-us/powershell/module/exchange/new-mobiledevicemailboxpolicy?view=exchange-ps
